MONTHLY WELLNESS TIPS

From your MVHS Counseling Team

The start of a new semester is a great time to revamp your efforts to organize your life and create balance among your many responsibilities. Here are some ways you can stay organized in school and stay on top of your workload:

1. Get into a Routine: Using a planner or calendar to keep track of your responsibilities is super helpful in creating a routine. Getting into a routine can help with time management and can help you stay on track of important things to do.

2. Use tools to stay organized: Along with a planner or calendar, the use of other tools can help you stay organized; Pencil pouches to keep your writing utensils and other school supplies in one spot so you don't lose them; Folders to keep paperwork so they do not become loose in your backpack--this is how things get lost or forgotten!; Notebooks are handy to have on hand to write to-do lists, jot down assignment due-dates, and other important information to remember.

3. Color code and use labels: Color coding and labeling can help keep you on top of school work and due dates especially when balancing eight different classes. Use a different color for each class and highlight important dates and assignments with the associated color.

4. Break down big tasks into smaller ones: Big tasks can seem really overwhelming. By breaking down the assignment or task into smaller chunks it will reduce your anxiety and help you get a little bit done at a time. It may be helpful to set deadlines for yourself for each smaller part.

Have a great second semester!
